SUMMARY

Full-stack engineer with 6+ years of experience shipping web and mobile products, including 50+ projects delivered to U.S. financial institutions. Strong across the stack — React and React Native on the front end, Python/Node services and SQL databases on the back end — with production systems running today for real clients and users. Comfortable owning projects end-to-end: scoping, building, deploying, and maintaining. Advanced English and Spanish; experienced working with U.S.-based teams and clients.

EXPERIENCE

Full-Stack Developer — **Integritas** (now UST)

2022 – Present

- Delivered **50+ software projects for U.S. banks and credit unions**, 19 of them built on the Q2 digital-banking SDK.
- Worked across widely different stacks (React, Angular, Django, Java) and consistently shipped under tight deadlines, becoming a go-to developer for unfamiliar codebases.
- Collaborated daily in English with U.S.-based stakeholders on requirements, releases, and support.

Tech: React, React Native, Python, Django, Java, Angular, GraphQL, pytest, Q2 SDK

Freelance Software Developer — **Independent clients**

2023 – 2026

- Built and delivered a **custom ERP for commercial sales representatives** on Frappe/ERPNext — orders, catalogs, commissions, and client management in a single system.
- Developed an **internal management system for a bar** in React Native, covering day-to-day operations for staff.

Tech: Frappe/ERPNext, AWS, VPS, Python, React Native, PostgreSQL

Mid-Level Full-Stack Developer — **Grupo Jaime Câmara**

2022

- Maintained and enhanced the company CRM (ReactJS, Java, Spring Boot).
- Cut response times of complex queries by implementing SQL Server stored procedures; built custom search filters that sped up the sales team's workflow.

Tech: ReactJS, Java, Spring Boot, SQL Server, umijs

Mobile & Frontend Developer — **AWS Code**

2021 – 2022

- Accelerated web development at client XDN Travel by **60%**, earning assignment to two additional projects.
- Within three months, independently built **two complete web platforms** without technical leadership.

Tech: React, React Native, GraphQL, Apollo, Prisma, Redux, Storybook

Co-Founder & Full-Stack Developer — **Homero.tech**

2020 – 2021

- Co-founded a software studio; led projects end-to-end — client relationships, budgeting, development, and deployment on Linux VPS servers.

Tech: React, Node.js, MongoDB, PostgreSQL, PHP, Linux

SELECTED PROJECTS

Acervo — acervo.arq.br

Production SaaS platform where architects publish portfolios with **interactive 3D models rendered in the browser**. Built, deployed, and operated solo — auth, uploads, 3D visualization, SEO, and a public architect directory.

Geospot — map-blog.onrender.com

Photo-mapping app that extracts **EXIF/GPS metadata from images** to plot where each photo was taken on an interactive map.

Imprestáveis Códigos — imprestaveis-codigos.onrender.com

Collection of **computer vision** experiments and demos built with Python.

SKILLS

Languages: JavaScript, TypeScript, Python

Frontend: React, React Native, Angular

Backend: Node.js, Django, Frappe/ERPNext

Databases: PostgreSQL, MySQL, MongoDB, SQL Server

Cloud & Infra: AWS, GCP, Railway, VPS, Linux, Render

EDUCATION & LANGUAGES

B.Sc. Computer Engineering — UNINTER, expected 2027

Mechanical Engineering — Universidade Federal de Uberlândia, 2018–2021 (transferred)

Portuguese native · **English** advanced · **Spanish** advanced · **Italian** beginner

AWARDS

- Honorable mention — 1st Tomie Ohtake Institute Design Award
- 2nd place — UaiFi Hackathon
- 2nd place — Ubyfol Hackathon
